

**TEXILA
AMERICAN
UNIVERSITY**
Proud Texilian
You did it!
Corporate Brochure

Mr. S.P. Saju Bhaskar
Founder & President

This has been a landmark year for us. As a group, we have been able to achieve several milestones. Texila American University (TAU) Consortium is reimagining what it is to be a university in the 21st century: pioneering research and innovation, outstanding teaching, and a presence across the globe that fosters the international, interconnected perspective so necessary in our modern world.

Technology is a powerful tool for transforming learning. It helps affirm and advance relationships between educators and students, reinvent our approaches to learning and collaboration, reduce long-standing equity and accessibility gaps, and adapt learning experiences to meet the needs of all learners.

With technology, educators are collaborating in learning, seeking new knowledge and constantly acquiring new skills alongside their students. Education stakeholders should commit to working together to use technology to improve global education.

Technology is already sweeping through classrooms as educators and developers create more and more products designed to enhance education. New technologies like AI, machine learning, and educational software aren't just changing the field for students, they are shaking up the role of educators, creating philosophical shifts in approaches to teaching, and remodelling the classroom.

As a part of TAU Consortium, you will be an integral part of the group's commitment to diversity and globalization. Together, we will become a stronger conglomerate.

Mrs. Chithra Lakshmi
Co-Founder & Executive Vice President

On behalf of the Board and the management team of the TAU Consortium, I would like to thank all of you who have contributed to our company's success. With the unwavering dedication, commitment and constant hard work of our team, the TAU Consortium today has an important position in the field of education. In the last few years, we have evolved, grown and adjusted our strategy to the market's evolution, investing in our business' diversification and globalisation. It has brought us closer to our vision to be one of the leading universities in the world.

Our determination to deliver the highest standard of education and innovation is the same today as it was when the company was founded more than a decade ago. We study data and are continuously innovating. Our commitment to affordable education for all is the basis for our actions: "Bringing education to life." The TAU Consortium core values and determination of all stakeholders are vital to our continued success with the support of our clients, students, and employees with whom we work daily.

The backbone of our company, the TAU Consortium management system, provides the structure to manage all of TAU's services, with a strong focus on quality, with the overall aim to provide the optimal degree of services and to exceed our stakeholders' expectations at all times. TAU Consortium is committed to learning and creating substantial added value to the education industry. The contribution by all members in this process is essential to all of us.

We are excited about our journey over the coming years. Therefore, we welcome any idea for further improvement in order to maintain the highest possible standard of our services.

Global Outreach

About Texila Education Global Holding

Our Global Presence

With a presence on four continents (including United States of America, South America, India, Africa and Middle East) and international partnerships, we are world's leading university. Since 2010, Texila American University has been offering rigorous academics, cutting-edge research and leadership across the continents. Our campuses are driving force for innovation and discovery which serve local, national and global communities in many ways.

Over the years, we have had over 6000 students from across 70+ countries. This diversity can greatly enrich the collaborative learning experience by giving students the opportunity to gain a global perspective and develop cross-cultural communication skills. In addition, students will be able to build a global network of like-minded peers and educators.

Vision and Mission

Inspired by "Takshashila", world's first Centre of Learning, Texila aims to make education accessible to all.

Vision

As a top international university, Texila American University aims to play a foremost role in research and teaching. We are committed to provide high-quality education that is crucial for a healthy, sustainable, prosperous world.

Mission

- We aim for excellence in a wide range of medicine and non-medicine disciplines with high-quality research and teaching.
- We are focused on achieving the maximum impact on our students and other stakeholders with close collaboration with regional, national and international partners.
- TAU Consortium endeavours to instil highest ambitions for quality and integrity among its various members.
- We focus on discovering and disseminating knowledge and educating the next generation of doctors and healthcare professionals.

Culture and Values

At TAU, we are united by our values of Respect, Honesty, Integrity and Excellence. Through our actions we live these values and it is against them that we hold ourselves and others accountable. At TAU, we are fostering a values driven culture – one that is built around relationships and community, mutual respect, diversity and inclusion, and a strong commitment to ethics and integrity, collaboration, creativity and innovation. We believe that every individual has a role to play in bringing our values to life. We live the TAU values every day through the positive, supportive and meaningful relationships we create with our peers and the community.

Our Values

- We value our customers as they are the centre of our activities.
- We value, engage, enthuse & reward.
- We value Leadership without title.
- We value innovation in work & creativity in thought.
- We value Integrity, transparency, honesty & are ethical.
- Our actions create value for stakeholders there by benefiting community at large.
- We value sustainable growth that promotes profitability to fuel our global aspirations.

Business Units

Taksha Smart Labz

Smart Labz, Online Tutoring Solutions was launched as an option for K-12 students who have been impacted by COVID-19. Smart Labz was not only designed for those who are relegated to home online learning due to COVID-19, but also those who need additional help with homework, SAT & ACT Test preparation and require additional special topics-based tutoring.

We created Smart Labz as an alternative to more costly online tutoring platforms to provide an innovative online solution for school children to have access to live tutors for one-on-one help. Most of our competitors are expensive and so we developed an innovative (BRICS) model, which is affordable, effective and actively involves parents in all decision making. The other services offered under SmartLabz are outlined below:

Admission Services • Online Learning • Academic Support Services • Value Added Services

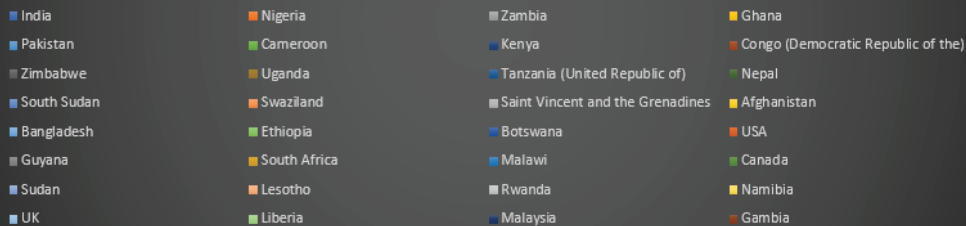

University of Central Nicaragua (UCN)

TAU DBLP programs follow the contemporary model of blended learning and is offered in partnership with University of Central Nicaragua (UCN).

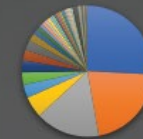

Educators across the globe are convinced that the way forward in education sector is through online learning. At Texila American University, we offer blended and online courses designed to help professionals advance in their careers. Our programs are industry focused, flexible and affordable, making them the preferred choice for students internationally.

Graduated Students - Distance and Blended Learning Program

We created Smart Labz as an alternative to more costly online tutoring platforms to provide an innovative online solution for school children to have access to live tutors for one-on-one help. Most of our competitors are expensive and so we developed an innovative (BRICS) model, which is affordable, effective and actively involves parents in all decision making.

E-Journal

Texila International Journal (TIJ) renders a great opportunity for the researchers who seek academic excellence. Our aim always lies in going beyond borders in ensuring that high quality and informative academic journals are available to a wide range of audiences. All our academic journals are open access and the articles submitted will be available as open access to the public. Journal articles published are licensed under, authors being the original owners of the copyright for the content published.

Texila International Journal (TIJ) is an online peer reviewed journal that publishes Review/Research articles which contribute new theoretical results in all Public Health, Medicine, Clinical Research, Management, Nursing, Academic Research, psychology etc papers are solicited from various topics.

Texila E-Conference

With latest technologies evolving in the world, things have become more convenient for people. To be a part of this world we need to adapt to what's new. Keeping in mind the latest trend, Texila American University, one among the renowned Medical Universities in the Caribbean planned to change the way people attend conferences and has brought the idea of e-Conference to Reality. TAU is the only private university that has launched the concept of e-conferencing and has so far enlightened over 15000 global audiences to its event.

E-Conference is a way of attending conferences over electronic means; it helps business owners save time, hefty travel expenses and gives complete flexibility. The most commonly referred e-Conference methods include electronic conference, virtual conference, internet conference, web conference and virtual events in general. Although people use different terminology to refer, the process is same; you take part in the conference over a virtual realm. Either you want to attend the conference or join as a speaker; e-Conference makes it feasible to do it from the place you are.

Takshatech

In the past 10 years, tremendous growth in the field of technology has made everything possible through the world wide web. We, at Texila American University, promote and encourage experimenting with new innovations in the field of education. Takshatech has 2 wings:

Learning Solutions

We value your business and develop elegant e-learning designs with leading edge technology to drive your business objectives.

Curriculum Design

Our curriculum design development services are simple and intuitive, with programming capabilities which helps in improve learning environment and increase efficiency.

Instructional Design Review

Our instructional design team focuses on promoting instructionally sound courses on the basis of learning theories, cognitive principle as well as deployment technology.

Content Development

Our team establishes efficacious content utilizing established Instructional Systems Design theories. We customize, develop and implement content adhering to the regulatory standards that are inherent to e-Learning domain.

SaaS

Software as a Service is considered as the complete software solutions for various business purposes. In today's digital world, SaaS plays a major role and has many advantages over the traditional software system. It is being created in such a way that is highly flexible and has the ability to scale up and down quickly response to an enterprise's requirement. The elements of SaaS are CaaS T-Connect I DMS Tatva Desk

CaaS (Conference as a Service)

Take the stress-free road to a successful conference with the help of a new technological advanced product called CaaS. This product serves as a backbone for the organizers for handling the events successfully without any difficulties from registration to certification. CaaS brings accessible and effective mediums that can promote any type of conference.

Milestone & Achievements

International Conference for Medical Students marked a new beginning for Texila American University, Guyana. Held in the campus at Georgetown from 24th to 25th June 2018, the two day event was attended by regional and international professors, practicing surgeons, students and several medical professionals.

Under the theme of 'Enriching the Caribbean Medical Education through Research', the event aimed to help medical students deepen and expand their knowledge and have a better understanding of internationally accepted concepts and practices.

CSR Activities

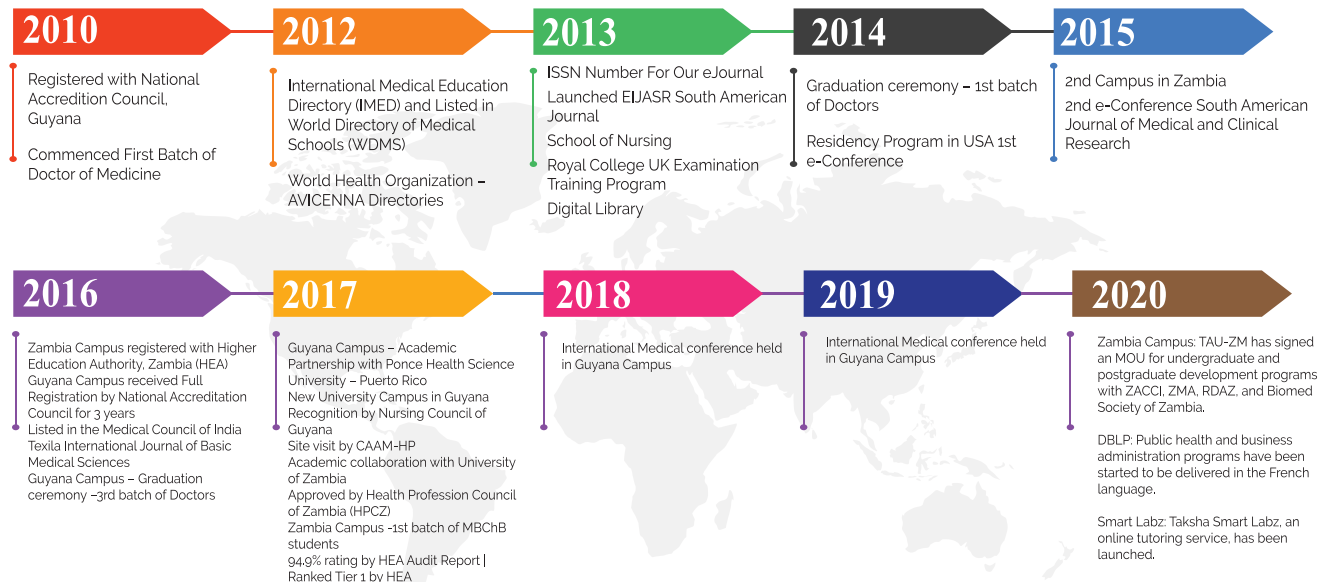

Kerala Flood Relief Funds

Kerala faced an unprecedented flood havoc. The disaster had caused immeasurable misery and destruction. Hundreds of lives were lost and thousands of homes were completely destroyed. Texila American University came forward to help the affected rebuild their lives and contributed generously to Relief Fund.

Clean India Campaign

The Swachh Bharat campaign seeks to create a Clean India. Cleanliness was very close to Mahatma Gandhi's heart. A clean India is the best tribute we, at Texila American University, can pay to Bapu on his birth anniversary.

Our Journey

Texila Alumni

We, at Texila American University, support and provide ways for our alumni to get involved in the life of our university. We also work to ensure that every member of our global community can access our world-class services and facilities. Our different events bring our alumni together to celebrate, debate and collaborate, while our international network of local groups allows alumni to reconnect with students in their region.
